## UNDERSTANDING MEMORY LOSS

*Helping kids learn  
about Alzheimer's  
disease and  
related  
dementias*

# ***UNDERSTANDING MEMORY LOSS***

## Program Objectives:

- 1.To educate children about Alzheimer's Disease and Related Dementia's (ADRD)
- 2.To provide an opportunity for children to meet other children who are facing ADRD in their family and therefore build natural peer support
- 3.Through education, help the children feel more comfortable about spending time with their loved one who is affected by dementia
- 4.Help children to understand that their relative with this disease is not changing or acting differently on purpose, it is because of the disease
- 5.To emphasize to the children in the program that their relative still benefits from attention and affection.

## Curriculum

- ✍ Dementia overview
- ✍ Learning about the brain
- ✍ Feelings never go away
- ✍ Communication
- ✍ Behaviours of dementia
